Snapshots

JULIUS KOMPATSCHER

Studying Electrical Engineering at NYCU has been a transformative journey. Immersing myself in the fields of AI and biomedical engineering, I engaged in dynamic group projects that profoundly enriched my problem-solving approach and collaborative skills. The vibrant campus life offered a stark yet exciting contrast to my experiences in Germany, broadening my perspective. Beyond academics, exploring the rich culture of Taiwan was an unforgettable experience, opening my eyes to its unique traditions and warm hospitality.

Overall, my time at NYCU has not only expanded my academic horizons but also equipped me with invaluable life lessons and cross-cultural understanding, preparing me for future challenges.
