摘要

本篇論文描述一個工作在低電壓 2.4GHz 的互補式金氧半整數除頻頻率合成器中。本論文改良了一個已提出的電荷幫浦電路，這個新的電荷幫浦電路電路具有電流匹配特性且不再具有 start-up 問題，可以有效的抑制雜頻的產生。並且使用了電容切換的壓控振盪器來降低其增益，並得以更進一步的降低寄生雜頻。一個基底驅動且可在低電壓操作的運算放大器被使用在電荷幫浦電路中。

以台灣積體電路製造股份有限公司以 0.25 微米製程實現，並自行量測完成。量測結果顯示本架構可使雜頻訊號較主訊號低六十五分貝，相位雜訊在 1 MHz 偏移量下每赫茲較主訊號低 111.14 分貝。這個電路所消耗的功率為 23 微瓦特。

A 1-V 2.4-GHz CMOS Frequency Synthesizer with Current-Match Charge Pump

National Chiao-Tung University

The logo of National Chiao-Tung University is a circular emblem with a gear-like border. Inside the circle, there is a stylized figure holding a torch, with the letters 'ES' and 'A' visible. The year '1959' is at the bottom. The word 'Abstract' is overlaid on the logo.

Abstract

A 1.3-V 2.4-GHz fully integrated frequency synthesizer for Bluetooth applications is proposed and designed in 0.25- μm CMOS technology. An improved current-match charge pump circuit without the start-up problem is used to reduce the spur level. Moreover, a bandswitching VCO is used to reduce the K_{vco} and hence the spur level can be further reduced. The prescaler is designed in 1-V supply voltage without the supply-voltage boosting. In order to operate in 1-V supply voltage, an op-amp with bulk-driven differential transconductor has been used in the current-match charge.

The circuit is fabricated using a standard TSMC 0.25 μm CMOS process and has been measured completely. The measured phase noise at 1-MHz offset is -111.14dBc/Hz, and the spur level at 1MHz offset is -64.87dBc. The operating frequency range is from 2.4-GHz to 2.48-GHz. The frequency synthesizer can operate at 1.3-V of power supply and consume 23-mW.

誌謝

首先，我要對我的指導教授吳重雨老師致上最誠摯的感謝。老師在這二年裡不論在硬體或是軟體上提供了我一個最佳的學習環境。在學習上老師也給予了適時的指導與啟發，使我不在錯誤當中打轉。

其次我要感謝實驗室的學長高宏鑫、鄭秋宏、廖以義、施育全、周忠昫、林俐如、黃冠勳、江政達、王文傑、虞繼堯、蘇烜毅、蔡俊良、李彥伯、黃柏獅、劉沂娟的努力，才使實驗室軟硬體設備一應俱全。在如此的環境下，我的論文才能順利完成。再來我要感謝實驗室的同學吳瑞仁、蘇芳德、鄭建祥、張秦豪、許德賢、丁彥、陳旻琰、陳勝豪、林韋霆、杜長慶、蘇紀豪、楊文嘉、李宗霖、邱偉茗、林大新、王騰毅、張家華、曾偉信、阿爛、黃如琳、郭秉捷、張瑋仁、林棋樺、李權哲、周政賢、蕭聖文、陳正瑞、陳政良……等，陪伴著我一起渡過了這二年的研究生涯。

最後我要感謝我的父母對我二十多年來辛苦的付出，使我在學習之餘無後顧之憂，還有我的女朋友賴玟均這幾年對我的關心和陪伴，使我得到了豐富的生活與健康的人生。謹以此論文獻給關心我的人。

謝致遠
